

ENVIRONMENTAL POLICY

It is the policy of SMC Euroclamp Ltd to conform to specified standards of quality, reliability and performance as laid down in the ISO 9000 system, and to do this in an environmentally friendly manner, on a continuing basis.

SMC's management team will ensure that the proper managerial, technical and administrative controls will operate in order to enable this policy to be maintained. The team will also ensure that a high level of customer satisfaction is maintained.

It is management policy to ensure that all personnel involved in the company's operations have appropriate training so that each individual concerned understands the environmental aspects and controls of his or her responsibilities.

It is the responsibility of all SMC employees to support and apply those sections of the company environmental policy and procedures which relate to their activities within the facility. They will be trained to initiate corrective actions on environmental matters, issues and concerns where and as appropriate.

SMC's policy also embraces relations with its suppliers with whom it will promote and implement processes and procedures which will be of mutual benefit and which also promote better environmental practices.

It is SMC's policy to continually strive to improve environmental performance.

The management of SMC commit to this environmental policy.
